**FileTrail Announces Strategic Partnership with 6pm**

**Relationship allows 6pm to resell FileTrail solutions and capitalize on emerging needs in the HealthCare market**

London, UK and San Jose, CA – August 2, 2010. FileTrail is pleased to announce a strategic partnership with 6pm to deliver high-value and differentiated Records Management and RFID-based capabilities within their EDM solution in the UK Health market.

FileTrail's leading records management and item tracking software has become an integral part of 6pm's Enterprise Document Management (EDM) solution for the UK Health market. Commenting on the agreement, Steve Wightman, Executive Director at 6pm "FileTrail is a key component in the way Trusts can manage their paper mountain because EDM solutions alone do not solve the problem without an expensive back-scanning service which always results in scanning documents that will never be read again. The FileTrail solution negates the need to do this yet still provides the clinician with a single view of the patient notes for both scanned document and records in the archives."

Jim Petty, Vice President at FileTrail Inc, said "We are very excited to be working a partner of 6pm's caliber. Our market-leading software will be a core element of 6pm's EDM solution and we expect very strong adoption across the UK Health market. This is an important market because of the innovation currently taking place, our relationship with 6pm helps ensure that Trusts will maximize the benefit of our solution over the coming years."

About 6pm Holdings PLC

6pm is an established IT Solutions Company specialising in Information Management, Business Intelligence and Document Management. The company's "Can do" attitude and pragmatic approach enables them to engage with reputable, blue-chip organisations such as Capgemini, BT, the NHS, and RICS amongst others. 6pm Holdings p.l.c floated on the Malta Stock Exchange in September 2007.
